Published: 15 April 2021

Peer-review is an essential part of the publication process, ensuring that *Clinical and Experimental Obstetrics & Gynecology* (CEOG) maintains high quality standards for the papers which we publish.

In 2020, a total of 202 papers were published in the journal. We wish to thank all the reviewers for their assistance, dedication and effort as related to the peer review process. We would not be able to continue with the publishing of our journal without you.

CEOG was founded in 1974. We are constantly striving to improve the publication and recognition of our journal. We hope to put things in place to receive Pubmed recognition in the near future, we have already undertaken this endeavor. We are also working to update the website so that accepted papers can be accessed online within a short duration from acceptance, prior to publication in the journal.

Among the reviewers who reviewed for CEOG in 2020, the following three have been selected to receive the "CEOG 2020 Outstanding Reviewer Award" for the timeliness and quality of their review reports in 2020: We wish to applaud their efforts.

Antonio Schiattarella, Doctor of Medicine of the University of Campania "Luigi Vanvitelli" in Italy.

Jose Carugno MD from the University of Miami Miller School of Medicine in the USA.

Toshifumi Takahashi, MD PhD of the Fukushima Medical University, located in Japan.

The editorial office also expresses their sincere gratitude to all of the reviewers, who shared their time and opinion by reviewing for CEOG in 2020. These individuals include:
